What is LearningApps?

<https://www.youtube.com/watch?v=InKqzxa0YdU>

LearningApps is a free platform for supporting learning with small interactive, multimedia-based learning nuggets. The platform offers more than twenty different learning nugget templates.

The nuggets are classified into 6 groups:

1. Choosing (multiple choice, closed test, marking texts, millionaire game)
2. Matching (pair game/on images/on maps/group-puzzle; group assignment, etc.)
3. Sequences (simple order, number line)
4. Writing (free text input, select quiz, crossword, hangman, fill-in tables)
5. Multi-player games (e.g. "horse racing, estimation, where is what?, quiz")
6. Tools (app matrix, audio/video with notices, chat, calendar, mindmap, notices, pin board, writing).

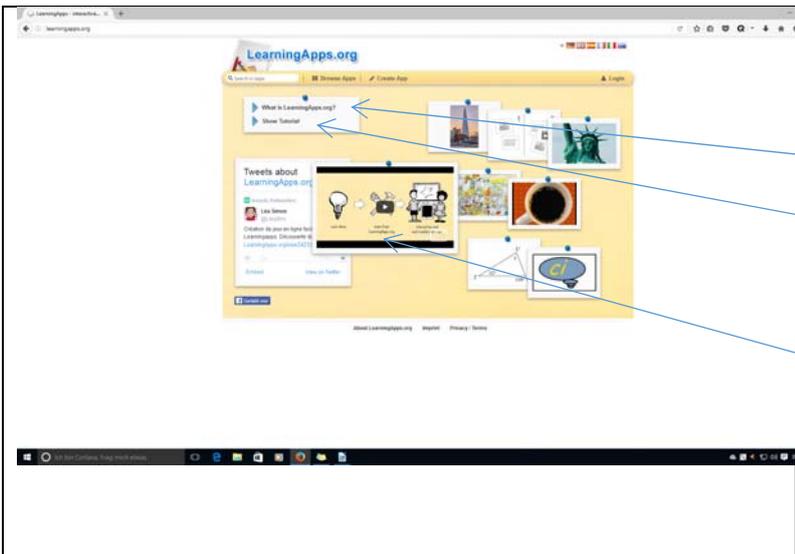

Each App is available as link and/or QR-Code.

Find several information for you

2. Register new account / Login

Start the registration

3a) Browse Apps

3b) Create App

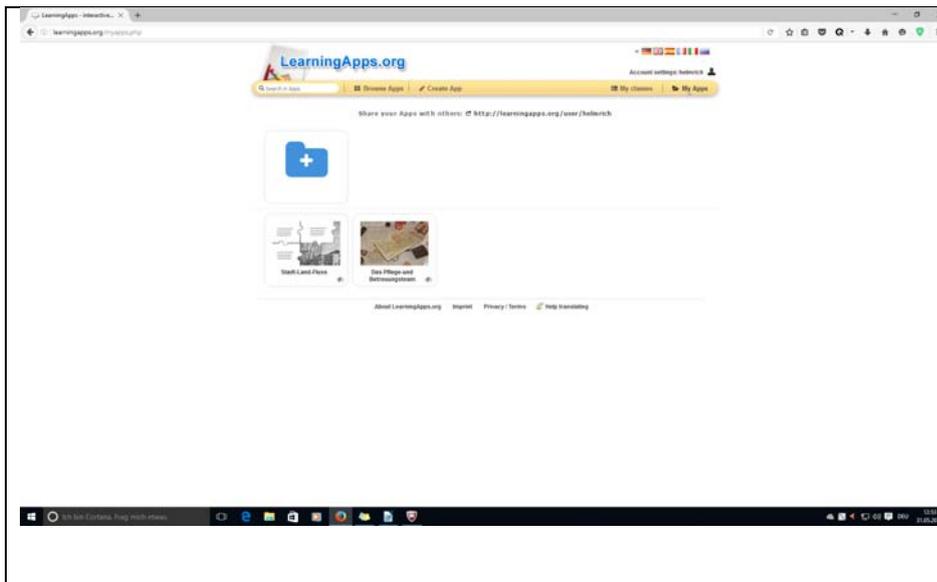

3c) My Apps

3a) Browse Apps/search in Apps

Gives the opportunity of using apps created by others

3c) My Apps

Here you find your automatically saved apps

Similar apps could be created or existing apps could be adapted

3b) Create App

Choose a tool

– here:

Group-Puzzle

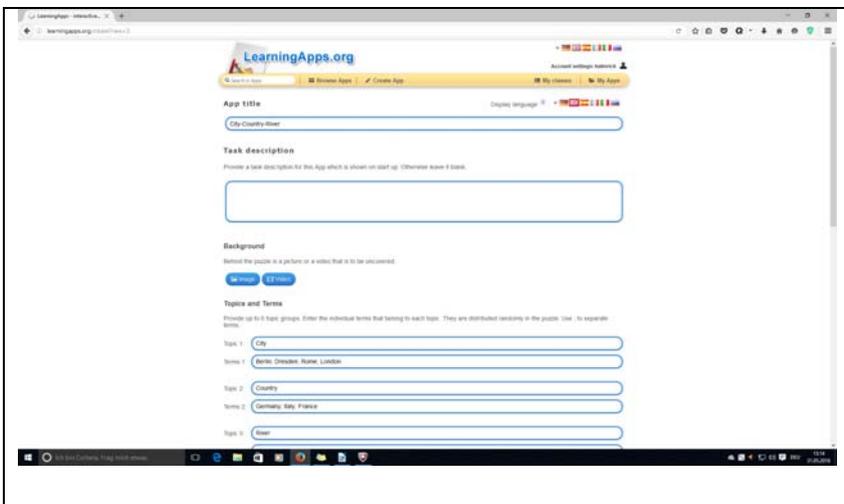

4. Template: group-puzzle

See examples or

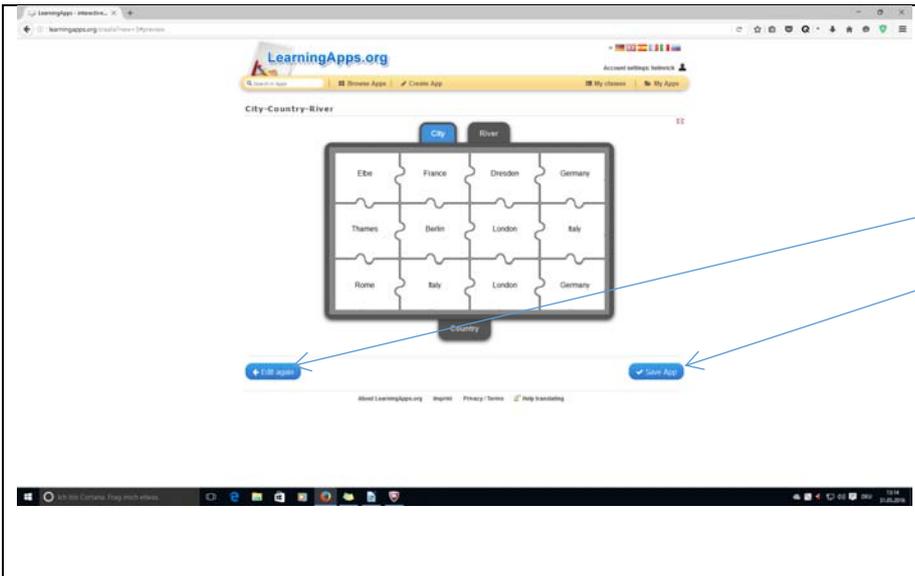

create new app

5. Create new App / Fill in content in the following fields:

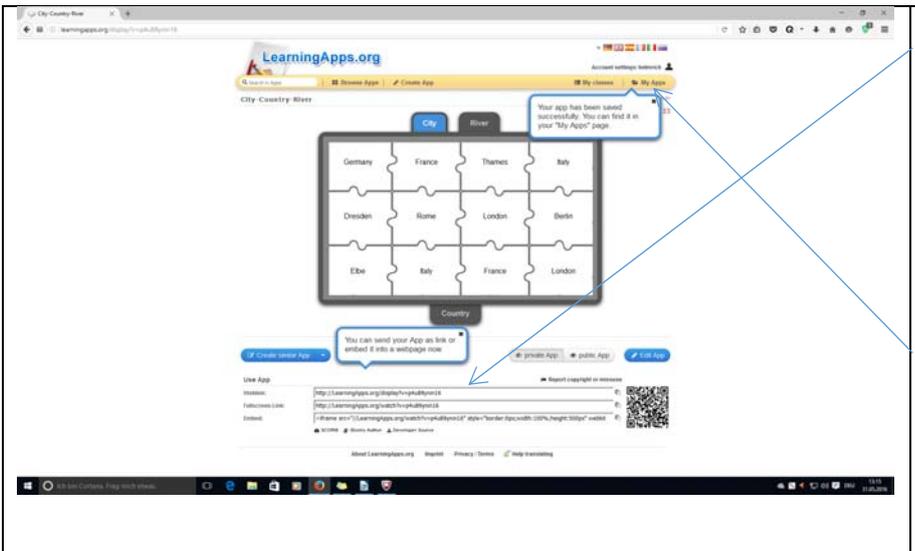

- App title
- Task Deskription
- Background
- Topics and Terms
- Puzzle size
- Feedback
- Help

6. Finish editing and show preview

Edit again or
Save App

7. Send your App as link and share it as

- Weblink
- Fullscreen link
- Embed as HTML-Code
- QR-Code

App is now saved in „My Apps“

8. Logout

Possibility to fulfill your profile and your account settings
